BTI Advisory Approved Flow

Summary Flow Tawarruq Financing (AAOIFI)

1. A Customer applies to the Bank for RM 10,000 financing by signing the Financing contract and enter into Commodity Murabahah Program (CMP). Under Terms & Conditions (T&C), the customer may appoint SEDANIA As Salam Capital independently as an agent (wakeel) to sell back the commodity to the potential Purchasers at the end of the program.

2. Once the application has been approved, the Bank will initiate the first Commodity trading process. The Bank will purchase RM10,000 worth of Telecommunication Airtime on spot and credit basis from the Commodity Supplier (Telecommunication Airtime Aggregator) via AS SIDQ Digital Commodity Trading Platform.

3. RM10,000 worth of Telecommunication Airtime will be delivered to the Bank via AS SIDQ Digital Commodity Trading Platform and obtains constructive possession (*qabd hukmi*) of the commodity.

4. The Bank now owns the commodity (*qabd hukmi*) and will then sell the commodity to the customer at cost plus profit (*Murabahah*) on deferred terms*.

5. The customer may appoint SEDANIA As Salam Capital as an agent (wakeel) to sell the commodity to Commodity Purchasers on spot price and random basis to random Commodity Purchaser via AS SIDQ Digital Commodity Trading Platform.

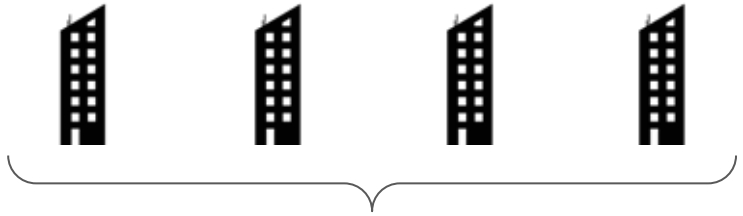

6. After the sale is completed, the Commodity Purchaser authorizes the Bank to pay the customer on it's behalf, subsequently the Commodity Purchaser agrees to pay the Seller on the Bank's behalf for set-off (*muqassah*).

7. The Bank credits the fund to the customer's CASA (Current or Saving account).

*If the customer opts to keep the commodity, they must inform the Bank prior to entering into the CMP for physical delivery (*qabd hakiki*). The Bank will then notify SEDANIA As Salam Capital to arrange with the Commodity Supplier for delivery once payment has been fully settled

Summary Flow Tawarruq Financing (AAOIFI)

1. A Customer applies to the Islamic Financial Institutions (IFI) for USD1,500 financing by signing the Financing contract and enter into Commodity Murabahah Program (CMP). Under Terms & Conditions (T&C), the customer may appoint SEDANIA As Salam Capital independently as a Messenger (*Rasul*) to sell back the commodity to the potential Purchasers at the end of the program.

2. Once the application has been approved, the IFI will initiate the first Commodity trading process. The IFI will purchase USD1,500 worth of Telecommunication Airtime on spot and credit basis from the Commodity Supplier (Telecommunication Airtime Aggregator) via AS SIDQ Digital Commodity Trading Platform.

3. USD1,500 worth of Telecommunication Airtime will be delivered to the Bank via AS SIDQ Digital Commodity Trading Platform and obtains constructive possession (*qabd hukmi*) of the commodity.

4. The IFI now owns the commodity (*qabd hukmi*) and will then sell the commodity to the customer at cost plus profit (*Murabahah*) on deferred terms*.

5. The customer may appoint SEDANIA As Salam Capital as a Messenger (*Rasul*) to sell the commodity to Commodity Purchasers on spot price and random basis to random Commodity Purchaser via AS SIDQ Digital Commodity Trading Platform.

6. The IFI credits the fund to the customer's CASA (Current or Saving account).

*If the customer opts to keep the commodity, they must inform the IFI prior to entering into the CMP for physical delivery (*qabd haqiqi*). The Bank will then notify SEDANIA As Salam Capital to arrange with the Commodity Supplier for delivery once payment has been fully settled
